## MAGICAL TINKERING

Since **Level 1**, as an Action while holding **Tinker's Tools**, you can conjure one basic item in an unoccupied space within 5 feet. The item lasts for 1 hour.

You can do this a number of times equal to your **Intelligence modifier** (minimum 1) per Long Rest.

### ITEM OPTIONS

Ball Bearings, Basket, Bedroll, Bell, Blanket, Block and Tackle, Bucket, Caltrops, Candle, Crowbar, Flask, Jug, Lamp, Net, Oil, Paper, Parchment, Pole, Pouch, Rope, Sack, Shovel, String, Tinderbox, Torch, Vial

## SPELLCASTING (1/2)

You channel magic through your **tools**, crafting spells instead of casting them in the traditional way.

### TOOLS AS FOCUS

Use **Thieves' Tools**, **Tinker's Tools**, or any **Artisan's Tools** you're proficient with as your **Spellcasting Focus**. You must be holding it to cast spells with an **M** component.

### CANTRIPS

Know **2 cantrips** from the Artificer list.

After a Long Rest, you may **swap 1** for another.

At levels **10** and **14**, you learn an additional cantrip.

## SPELLCASTING (2/2)

### SPELLCASTING ABILITY

**Spellcasting Ability:** Intelligence

Use Intelligence for spell attack rolls and saving throw DCs.

### PREPARED SPELLS

Prepare **Intelligence modifier + Artificer level** spells (minimum 1).

Choose from the Artificer list. Cure Wounds and Grease are recommended.

### SPELL SLOTS

As a **half caster**, you gain spell slots more slowly than full casters.

All slots are regained after a Long Rest.

If you multiclass, treat each level in Artificer as **½ level** (rounded up) when calculating your total caster level for determining spell slots. Add this to your full caster levels.

## REPLICATE MAGIC ITEM

You learn arcane **plans** that let you craft **magic items** at the end of a Long Rest using **Tinker's Tools**.

### CRAFTING RULES

- Choose **4 magic item plans** when you gain this feature
- Create **1–2 items** after a Long Rest (must be different)
- Must be items you have plans for
- If item requires attunement, you can attune during creation
- Items vanish when you die or exceed your item limit

### ITEM DURATION

Items replicate real magic items but are not permanent

- They vanish **1d4 days** after your death
- Contents of containers (like **Bag of Holding**) reappear safely

### PLAN MANAGEMENT

- Learn additional plans as you level up
- Swap 1 plan when you gain a level

## SOUL OF ARTIFICE

### Level 20 Feature

**Cheat Death:** When dropped to 0 HP, disintegrate a replicated Uncommon/Rare item to instead return to 20 HP.

**Magical Guidance:** While attuned to at least 1 item, add 1d6 to any ability check once per turn.

## RIGHT TOOL FOR THE JOB

Since **Level 3**, Magical Tinkering can now create any set of **Artisan's Tools** instantly, using your tools and creativity.

### AVAILABLE TOOL SETS

|                         |                       |
|-------------------------|-----------------------|
| Alchemist's Supplies    | Brewer's Supplies     |
| Calligrapher's Supplies | Carpenter's Tools     |
| Cartographer's Tools    | Cobbler's Tools       |
| Cook's Utensils         | Glassblower's Tools   |
| Jeweler's Tools         | Leatherworker's Tools |
| Mason's Tools           | Painter's Supplies    |
| Potter's Tools          | Smith's Tools         |
| Tinker's Tools          | Weaver's Tools        |
| Woodcarver's Tools      | —                     |

## MAGIC ITEM TINKER

Since **Level 6**, **Drain Magic Item** (**Bonus Action**): Touch a **Replicate Magic Item** you created within 5 ft and dismiss it to gain a temporary spell slot.

- **Common item** → **1st-level spell slot**
- **Uncommon/Rare item** → **2nd-level spell slot**

**Limit:** 1 use per Long Rest. Slot expires at next Long Rest.

**Expanded Replication:** You can now learn plans for **Uncommon items** (e.g. **Armor +1**, **Boots of Elvenkind**, **Eyes of Charming**).

## DRAIN MAGIC ITEM

**Bonus Action:** Touch a **Replicated Magic Item** within 5 ft and dismiss it to convert its energy into a temporary spell slot.

### SLOT CONVERSION

- **Common item** → **1st-level** spell slot
- **Uncommon or Rare** item → **2nd-level** spell slot

### LIMITS

**Uses:** 1 per Long Rest

**Expiration:** Slot vanishes at end of next Long Rest

## FLASH OF GENIUS

When you or a creature you can see within **30 feet** fails an **Ability Check** or a **Saving Throw**, you can use your **Reaction** to add a bonus to the roll.

The bonus equals your **Intelligence modifier** (minimum 1).

You can decide to use this feature **after seeing the roll**, but before its outcome is determined.

### USES PER LONG REST

You can use this feature a number of times equal to your **Intelligence modifier** (minimum once).

You regain all expended uses when you finish a **Long Rest**.

## MAGIC ITEM ADEPT

You have achieved a profound mastery over magical craftsmanship, allowing you to handle more magic items and craft them with greater efficiency.

### ATTUNEMENT UPGRADE

You can now attune to **up to 4 magic items** at once, rather than the usual limit of 3.

### EFFICIENT REPLICATION

When using **Replicate Magic Item** to craft a **Common** or **Uncommon** item:

- The crafting time is reduced to  $\frac{1}{4}$  of the standard time.
- The gold cost is reduced to  $\frac{1}{2}$  of the standard cost.

## SPELL-STORING ITEM

Store magical power inside a weapon or focus, allowing others to cast a spell you infused.

### INFUSE A SPELL

After a Long Rest, touch a **Simple/Martial weapon** or **Spellcasting Focus**.

Choose a **1st-3rd level Artificer spell** with 1 **Action** casting time (need not be prepared).

That spell is stored in the object.

### CASTING

A creature holding it may use an **Action** to cast the spell, using your **spellcasting ability modifier**. It must Concentrate if required.

### LIMITS

- Uses =  $2 \times \text{Int mod}$  (min 2)
- Recharge: After each Long Rest
- Storing a new spell replaces the old one, even if unused

The spell remains until expended / replaced.

## MAGIC ITEM SAVANT

You've honed your expertise with magic items, enhancing your attunement capacity and unlocking rare replications.

### ATTUNEMENT

You can attune to up to **5 magic items** simultaneously.

### RARE ITEM REPLICATION

When choosing plans for your **Replicate Magic Item** feature, you can now select from the **Rare magic item list**.

You may have up to **3 Rare replicated items** active at the same time.

## MAGIC ITEM MASTER

At the peak of your craft, your affinity for **magic items** becomes unmatched.

You can now attune to **up to six magic items simultaneously**, instead of the usual limit of **three**.

### ATTUNEMENT OVERLOAD

This exceptional capacity allows you to wield and benefit from more magical effects than any other adventurer.

Only **one item** may be attuned per **Short Rest**, as normal, but your total attuned capacity increases to **six**.

You are still bound by all other standard **attunement** rules.

## ABILITY SCORE

**Levels** **4**, **8**, **12** & **16**

At these levels, you gain the **Ability Score Improvement** feat or a feat of your choice.

### IMPROVEMENT OPTIONS

- Increase one ability by **+2** **OR** two abilities by **+1** each.
- You can't raise an ability above **20** with this feature.

### STRATEGIC TIP

Consider whether boosting your spellcasting stat or picking up a versatile feat better suits your current role.

## EPIC BOON

Gain the **Epic Boon** feat, or another feat of your choice.

### WHAT'S AN EPIC BOON?

Epic Boons are powerful late-game feats, exclusive to tier 4 adventurers.

They often grant strong passive effects or abilities beyond standard limits.

### EXAMPLES

- **Boon of Energy Resistance** — reduce elemental damage.
- **Boon of Fortitude** — +40 max HP.
- **Boon of High Magic** — gain a 9th-level slot.

### RULES

- No ability can exceed **20** unless explicitly allowed.

## MULTICLASS NOTE

When multiclassing, add  $\frac{1}{2}$  your **Artificer levels (round up)** to your full-caster levels to determine total spell slots.

Example: Fighter 3 / Artificer 5 counts as **Full Caster L = 5** ( $3 + \lceil 5 \div 2 \rceil$ ).
