

At **Level 3**, you gain proficiency with **Alchemist's Supplies**. If you're already proficient, choose another set of **Artisan's Tools**.

Brewing a potion now takes ½ the usual time (DMG crafting rules).

When you become an Alchemist by getting the Alchemist class feature at **Level 3**, you get these spells prepared for you at the Artificer levels shown:

Level	Spells	
3	Healing Word	Ray of Sickness
5	Flaming Sphere	Melf's Acid Arrow
9	Gaseous Form	Mass Healing Word
13	Death Ward	Vitriolic Sphere
17	Cloudkill	Raise Dead

After each **Long Rest**, create **2** random elixirs using your **Alchemist's Supplies**.

Anyone can use a **Bonus Action** to drink or administer one to a creature within **5ft**.

As a **Magic Action**, expend a **spell slot** to brew an elixir of your choice.

See the **Experimental Elixir** table for details.

DAILY RANDOM ELIXIRS

You can craft the following number of **random elixirs** after each **Long Rest**.

You may still brew more manually using spell slots.

Level 3	Level 5	Level 9	Level 15
2	3	4	5

When casting a spell using your **Alchemist's Supplies** as your **Spellcasting Focus**, you may add your **Intelligence modifier** (minimum +1) to one of the healing or damage spell's rolls:

RULES

- Healing roll — when restoring Hit Points.
- Damage roll — if the spell deals **Acid**, **Fire**, **Necrotic**, or **Poison** damage.
- This bonus applies **once per spell**.
- Your DM may allow alternative tools as your focus, for thematic purposes.

Your reagents offer powerful restorative effects.

FORTIFY

When a creature drinks one of your elixirs, it also gains **temporary hit points** equal to your **Intelligence modifier + Artificer level**.

RESTORE

You can cast **Lesser Restoration** without expending a spell slot or preparing the spell.

This requires using your **Alchemist's Supplies** as your focus.

Uses per Long Rest = Intelligence modifier (minimum 1).

ALCHEMICAL ERUPTION

Once on each of your turns, when you cast a spell that deals **Acid**, **Fire**, **Necrotic**, or **Poison** damage, you can also deal **2d8 Force damage** to one of the targets hit.

CHEMICAL RESISTANCE

You gain **Resistance** to both **Acid** and **Poison** damage.

CONJURED CAULDRON

You can cast **Tasha's Bubbling Cauldron** without expending a spell slot, without preparing it, and without material components. **Usable once per Long Rest**.

You may create elixirs using the table below, as per the **Experimental Elixir** feature.

d6	Effect
1	Healing (2d8 + Int)
2	Swiftness (+10 ft Speed, 1 h)
3	Resilience (+1 AC, 10 min)
4	Boldness (add 1d4 to attacks & saves, 1 min)
5	Flight (10 ft Fly, 10 min)
6	Choose any effect above
