QUEST FOR KNOWLEDGE

Warlocks pursue **forbidden knowledge** hidden within the multiverse, often found in ancient tomes or whispered through **eldritch invocations**.

Their arcane journey leads to a **binding pact** with extraplanar patrons such as **angels**, **archfey**, **devils**, **hags**, or **entities of the Far Realm**.

Patrons serve as both **resource** and **master**: some Warlocks show **reverence**, others obey **reluctantly**, and a few conspire to **twist the pact**.

Once bound, the Warlock is driven by a **thirst for arcane power** and a hunger for **cosmic truth**, often pursued through **adventure**.
